MTI Media Solutions and Accordent Sign Resellers Agreement

Ottawa, ON, Canada, April 23, 2008 – MTI Media Solutions, an enterprise multimedia service provider, announced today that they have signed a resellers agreement with rich media communications leader, Accordent Technologies.

Under the terms of this agreement, MTI Media Solutions will introduce the Accordent product suite into the Canadian market allowing business of all sizes the ability to enhance their audio and visual presentations. The Accordent Rich Media Suite includes the Accordent Capture Station™, an easy-to-use, room-based appliance that enables virtually anyone to webcast and record high-value presentations that take place every day in the world's meeting rooms, classrooms and boardrooms. PresenterPRO Enterprise Edition™, a live and on-demand webcasting solution for organizations that includes interactive features, such as polling, survey and moderated Q&A features, and Accordent PresenterPLUS™, Accordent's professional-caliber presentation editing tool. The Accordent Media Management System™ gives organizations unparalleled ability to manage, search and control their Accordent rich media assets – from user authentication

to certification, database integration and enhanced reporting – in order to understand and monitor rich media communications effectiveness.”

“The Accordent portfolio allows our clients to develop rich media presentations that can be streamed live or available on-demand for their employees,” said Brian H. Munroe, President of MTI Media Solutions. “Our clients are excited about using this technology to create media solutions that help cut back on company travel and assist in achieving higher levels of environmental awareness.”

With this joint solution, MTI Media Solutions and Accordent will help businesses in the technology, government, and educational sectors realize a cost reduction in travel budgets each year. This reduction in travel will become the first steps to new corporate green initiatives.

“Our agreement with MTI Media Solutions gives Accordent an opportunity to support the various travel reduction strategies for organizations in Canada’s National Capital Region and across the country,” said Marc Haimsohn, VP, Business Development of Accordent. “With quality audio and video presentations available live and on-demand, organizations are more likely to cut back on travel for these events.”

About MTI Media Solutions

Leveraging over 10 years of experience in information technology, customer service, and project management, MTI Media Solutions was developed out of the successes of Munroe Technologies Inc. With a wide range of past projects, MTI has the education and resources to ensure a quality product is delivered to our clients every time. At MTI Media Solutions we believe that each client becomes a strategic partner with our team working towards a common goal.
